

# HANDICAP RUN 10/05/2011

Last night's handicap run went ahead with 15 runners, conditions were good and there were some very good performances. Even our accident prone pretend Aussie, Kev, managed to get round without falling over. Poor Tony is showing his age by struggling to run the course in the right direction, bless.

Paul 'Ghandi' Robinson was first in; it was good to see him with his 'race face' on again.

Apologies if there are any discrepancies with the results, a broken pencil and then a pen that didn't like the rain turned the results into a scrawled mess.

Next month's event should be on Tuesday June 7<sup>th</sup>.
