

HANDICAP RUN 04/10/2011

There was some good quality racing tonight. All the runners were in with 54 seconds of each other so the handicapping was pretty close to ideal I think. Some really close finishes – Peter in a crumpled heap after his last ditch efforts to pass Jean on the line. I've called it as a dead heat as it was so close. There were plenty of other 'neck and neck' duels throughout the field and everyone seemed to enjoy the sporting challenge that makes this type of event so good.

A lot of runners have taken a chunk off their previous time so well done to all.
